IT on your terms

LET US HELP YOU **SIMPLIFY YOUR IT**

Thanks for taking the time to fill in our questionnaire. Now we've got some answers for your technology-related woes, based on our experience of working with businesses like yours. Let's simplify your IT.

WHO YOU ARE AND WHAT YOU DO

You employ 250 people

250
employees

We designed Workplace Hub specifically for businesses like yours

You're based in US

That's handy. We have offices all over so it's easy for one of our IT experts to come and see you.

Your business sector is Education

We're experienced at helping businesses in the education sector. We designed Workplace Hub to tackle exactly the kind of IT issues you face.

6% of business we work with are in the education sector.

THE ISSUES YOU FACE

You said you count every single penny / cent / yen

On average, businesses your size save \$24,650 each year by moving to Workplace Hub. What would you do with that extra money?

You said your company loses 12 hours on IT issues every week

Did you know businesses like yours lose, on average, 6 hours a week battling IT issues?

If you could get that time back, what you would you do instead? Here's what other business owners said:

How businesses would spend the time they waste on IT issues if they could

You confirmed that you might as well go home for the week because it takes so long for your IT team to respond

With Workplace Hub you get support whenever you need it, so you can get back to business quicker.

Average number of hours spent on IT problems

You said your business gets hacked every now and then, but you're not too worried

Hackers don't discriminate. They're constantly attacking businesses of all sizes.

Did you know 60% of businesses hit with a data breach close within six months?*

* <https://lp.switchfast.com/smb-cybersecurity-report>

These are the kind of attacks you said a hacker might use on your system

Workplace Hub comes with Sophos' sophisticated threat-management technology that identifies risks accurately and deals with them quickly to keep your data safe at all times.

Not only that, but we constantly update our systems to protect you from new risks as they emerge.

- Keylogger
- Spamware
- DNS spoofing
- Cookie theft
- DOS
- Cross site scripting
- Malware
- Bait and switch
- Brute force
- Trojan
- SQL injection
- Waterhole attack
- Ransomware
- IoT attack
- Fake wap
- Clickjacking
- Man in the middle attack
- Phishing

You said this is how much impact these IT issues have on your business

Maddening. In fact, businesses your size regularly cite Being hacked, Hardware failure, and System fault as their biggest IT headaches. Whatever IT issues you have, Workplace Hub eliminates them all.

HOW WE CAN HELP YOU

Your IT is clearly under-delivering. Why settle for less than you deserve? Dealing with your IT issues can go a long way to helping you achieve your business goals. **Here's how you can simplify your IT:**

- Invest in a robust and reliable IT system that does everything you need without you having to think about it.
- Make budgeting easy by choosing one provider with one contract and a fixed monthly price.
- Choose security tools that expose hidden risks and protect your people and networks from malicious IT attacks.
- Make sure you have 24/7 support for when something goes wrong, but also proactive monitoring to avoid problems in the first place.
- Automate your updates so you're not constantly having to do them manually.
- Keep your data safe by regularly backing up, locally and to the cloud.

Sound good? Now our IT consultants understand your issues, your local Workplace Hub representative will be in touch soon to help you unlock your potential. **In the meantime, check out workplacehub.com for more information.**
